Ian,

I will be responding to the NCC emergency line tomorrow from 9am to 9pm at the request of the MRC, as they are anticipating high volumes on their side.

I will likely be in touch with you if we get calls and of course, will be available should you need.

Thanks,
Rosanna

Hi all

I spoke to OPS downtown tactical. They understand our concern and agree that this is not the time for us to be not clear on who manages the actions on the ground.

If/ when there is an issue to flag they will likely reach out to the emergency line, or to me, and will advise of the situation and indicate if it is for information alone or if they are looking to work with us towards a collaborative solution.

Sergeant Kay feels like the call from earlier was likely for informational awareness but that, as provided, left a lot of questions.

If this occurs again I'll reflag and we can continue to work on getting the process straightened away as the weekend progresses.

Rosanna, this will certainly impact you as the weekend moves along. We can chat as often as needed to make sure that everyone is clear on who needs to do what and when.

Cheers
Ian

Thanks Chris. The end of your email bug me a little

We are good players in giving access to our properties to help ops managing this situation.

This is not the place and time (for them) to play the jurisdiction game. We will make sure this is well understood by ops.

If not we can reconsider our position.

Confed park is part of the solution for ops therefore it also needs to be well protected. The same rationale goes for sjam sgec and others.

We will make sure there is no cherry picking here

Thanks.

Ian please make some phone calls (not urgent) to solve this. I'll be there if need be.

Pat

Update #3:

Left site around 4:30pm. At that time, protest vehicles are parked along Lawrence Freiman but the road is passable. Two controlled fires are going in drums / metal cans close to Lawrence Freiman. Music and loudspeakers had just been set-up on a deck of one of the flat-bed trucks. I did not see any tents up yet. The rest of the park is still quiet and largely vacant. Organisers for the group have left a space for vehicle/EMS access in case of any incidents on the canal.

We spoke with two OPS officers who were onsite at Lawrence Freiman. They were not concerned about the fires and had no intention of intervening. The individual I previously discussed ("Patrick") was onsite and having intermittent heated exchanges with OPS. In an effort not to further antagonize the group parked along Lawrence Freiman and for our own safety (we were greatly outnumbered) we did not intervene for the fires.

We received another call over the radio from OPS (via MRC dispatch) around 5:20pm to attend Confederation Park concerning the fires. The caller from OPS claimed that they have two more barrels now located under the QED overpass – OPS did not leave any contact information for the officer reporting this and referred only to "OPS dispatch" as the source. Our dispatch explained that OPS called us for this citing jurisdictional grounds (ie: Confed is not their jurisdiction). However, I would like to point out that OPS is currently in control of access to QED with officers in patrol vehicles stationed at access points controlling traffic. The underpass is part of QED. CO Jason Pink will be taking over the updates for tomorrow .

Update #2:

Wellington Street is partially closed – traffic has increased significantly in the core (both vehicular and pedestrian). The increase is primarily protestors. Confederation Park remains quiet – however several more vehicles linked to the protest have accumulated along Lawrence Freiman Lane. OPS has an officer onsite at this location. Traffic is still able to circumnavigate the park without issue at this time. SJAM at Booth is currently closed by OPS – no issues thus far.

Mathieu Brisson and Bruce (for impact on ops and canal ops) can be added.

I'll let Anne decide for others to be added.

I don't have any other instructions to provide at this time. It's mostly police work from now on.

Please monitor, gather data, report and stay safe.

Pat

Thanks Christopher for your report.

I am adding Anne to the email chain.

Pat and Anne, please advise who else you would like for us to add to this group.

Also if you have specific instructions should the situation escalate and the infrastructures cited below materialise.

Thanks

Ivana

Subject: RE: Truck convoy- CO responsibilities

Good morning.

First update:

Traffic is starting to build along Wellington Street in front of Parliament Hill. Traffic in the core is moving well at this time.

Confed Park: The park is quiet at this time. There is one vehicle with a caravan (camper trailer) parked on Lawrence Freiman Lane – the owner of which flagged me down to talk as I passed by. This individual, who identified himself as “Patrick”, claimed that the protesters intend to use Confederation Park as a food distribution area and hang-out spot for the protestors overnight. He also claimed that the Six Nations intend to make use of the park to erect teepees. He claimed that protestors intend to use fire in barrels as warming stations and that “thousands of people” will be using the park overnight with a sound engineer coming to set-up music later today so that protestors may dance and rest during their stay in the capital. He also mentioned that it was their intention to stay “potentially for months if necessary”.

“Patrick” demanded that I acquiesce to these pseudo demands and became increasingly agitated throughout the exchange (this was without provocation). I have no idea whether or not this individual is associated with the organizers of the protest (he was unable and partially unwilling to cite any contact(s) either with NCC, GOC or the protest groups), nor if anything he told me was legitimate. However I pass this info along as an FYI for all concerned. “Patrick” was involved with the last protest in December and recalled dealing with CO’s then.

Please advise if you wish to have anyone added or removed from this email chain.

Regards,

Christopher Myles

Subject: Truck convoy- CO responsibilities

Hello Pietro,

I understand that you are invited at a meeting tomorrow morning and may also be attending currently a meeting on the same topic.

I just finished a meeting with Michel Houle, Patrick and Christian Belleau on the upcoming demonstration.

In summary, these are the expectations from management for the CO team:

1. 1. During the 28, 29, and 30th of January (this may be extended), please assign officers to monitor Confederation Park
2. 2. Officers monitoring the park will report back 3 times per day (morning, afternoon and early evening) as to their observations. I will provide at a later date all those that should be in that email.
3. 3. Officers are not to interact and are only expected to observe developments and keep us informed.

4. 4. In the event that this event turns sour and is no longer peaceful, officers should reach out to OPS. OPS is currently aware of the situation. Given the extent of the demonstration, OPS and RCMP may be in close proximity.
5. 5. Pat's team has a contract in place with a security company and they will be doing the monitoring during the evenings and will report back to Ian.

Please assign officers and let us know who has been assigned.

Pat if I missed something please let us know.

Thanks you
